A Few Facts About Clothes

A woman shops around—she examines and compares and, when she is satisfied, she buys. A man, as a rule, doesn't shop. He goes almost mechanically to one store from force of habit, or because his friends buy there. But each year men get more wide awake and appreciate the fact that there's something more to the Clothes question than attractive outside appearance. We see increasing numbers of men each season who know more about the "unseen" parts of the Suit. When a store says—"Suits \$10.00, \$12.00 to \$25.00," what does it signify until you have examined the Suit? It's what you get for your money and not what you pay that makes good value. We ask comparison. That's the test we welcome. We're strong on it!

We Clean, Press and Repair Clothing.
